How to Eat with Chopsticks

1. Clasp the chopstick between your thumb and forefinger, nestling the upper stick in 'the web' of your hand. Rest the lower stick against your ring finger tip.
2. Hold the second chopstick as you would a pencil. Practice moving this stick independently of the other (which should remain stationary).
3. Now you can see how easy the 'pincer' movements. Pick up your favorite morsels. From here on, enjoy yourself!
